605 Test Squadron (TS)

The 605 TS conducts operational tests and evaluations (OT&Es) and tactics development and evaluation of C4ISR collection, processing, and exploitation systems. Among others, 605 TS programs include Airborne Warning and Control System (AWACS), Joint Surveillance Target Attack Radar System (Joint STARS), Modular Control Equipment (MCE), Theater Battle Management Core Systems (TBMCS), and Air Operations Center (AOC) as a weapons system.

The 605 TS is responsible for development and execution of the "Joint Command and Control ISR" Joint Test and Evaluation nomination. Additionally, the 605 TS manages and coordinates advanced concept technology demonstrations, operational concept demonstrations, and other technology-insertion and spiral-development efforts while providing configuration management for AOC systems.

The 605 TS has two detachments: one in Seattle, Washington and the other in Melbourne, Florida.
